

MAINTENANCE WORKER I
MAINTENANCE WORKER II

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

DEFINITION

To perform routine duties in the maintenance, repair and construction of streets, sanitary and storm sewers and other City facilities; to operate a variety of maintenance tools, equipment and vehicles; and to perform a variety of maintenance duties relative to assigned area of responsibility.

Maintenance Worker I - This is the entry level class in the Maintenance Worker series. This class is distinguished from the Maintenance Worker II by the performance of the more routine tasks and duties assigned to positions within the series. Since this class is typically used as a training class, employees may have only limited or no directly related work experience.

Maintenance-Worker _II - This is the full journey level class within the Maintenance Worker series. Employees within this class are distinguished from the Maintenance Worker I by the performance of the full range of duties as assigned. Employees at this level receive only occasional instruction or assistance as new or unusual situations arise, and are fully aware of the operating procedures and policies of the work unit. Positions in this class are flexibly staffed and are normally filled by advancement from the I level, or when filled from the outside, have prior experience.

SUPERVISION RECEIVED AND EXERCISED

Maintenance Worker I Receives immediate supervision from the Public Works Superintendent. Maintenance Worker II Receives general supervision from the Public Works Superintendent.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS - *Essential and other important responsibilities and duties may include, but are not limited to, the following:*

Essential Functions:

1. Perform routine duties in the maintenance, construction and repair of City facilities including streets, public utility systems, walkways and roadways.
2. Perform sanitary sewer maintenance; uncover, repair, flush and clean sewers; install and reroute sewer systems.
3. Maintain and repair lift stations and equipment including pumps, backup generators, valves, pipes and exterior facilities.
4. Perform storm sewer maintenance; clean up and repair damage done by storms; build, repair and maintain adequate storm water systems; build temporary and permanent storm water diversions as needed.
